

Using the FREE public airwaves to support one candidate for President reminds me of State sponsored Media that exist in Communist countries.

Sinclair Broadcasting's decision to air "Stolen Honor" is like having a free hour of a political advertisement. Why don't they air "Going Up River"? I can Not believe that you are allowing this to happen. This is a sure sign of the dangers of media consolidation.

If one Corporation can use Free Media to influence the public in a Presidential Campaign, our democracy is in danger. Thank you.
